To whom it may concern

Dear Sirs,

Re: Reeve-Tec Membranes Ltd

We employed Reeve-Tec Membranes Ltd to supply and lay approximately 6000square metres of gas membrane on a site in Slough.

We found them to be very user friendly, within a week of us becoming aware of the need to install a membrane, we had obtained a quotation placed an order and Reeve-Tec were on site installing the membrane, thus avoiding a delay to the pouring of the concrete floor slab and allowing us to achieve a critical partial handover date.

We would have no hesitation in using Reeve-Tec Membranes Ltd again.

Yours faithfully
For and on behalf of Kier Construction.

A.R. Sharp.
Senior Surveyor.
