Date: 14 June 2012,

RE: Reeve-Tec Membranes Ltd

To Whom It May Concern:

Reeve-Tec Membranes Ltd was subcontracted in to our construction project at 1 Pear Tree Street Islington EC1V 3SB to apply gas membrane before the construction of the ground floor slab.

Reeve-Tec Membranes Ltd is a very professional company to deal with from Office level right down to there operatives.

They are very flexible and work extremely hard to install there product knowing there is a lot of pressure for them to install as quick as possible. I highly recommend Reeve-Tec Membranes Ltd as they are quick, reliable and there standard of work is excellent.

If you have any quires please don't hesitate to contact me

Kind Regards,

Tom Moore
