To whom it may concern,

We can confirm that we recently worked with Reeve-Tec Membranes on a job for Vinici Construction UK Limited

Project Cactus in Reading was an 82,000m² Distribution Centre for Tesco's, approximately 2,500m² of floor slab and Reeve-Tec RTEC 2 gas membrane was laid per day in conjunction with a laser screed machine.

At all times, Reeve-Tec kept up with our pour sequence and their workmanship was of a high quality.

We would have no hesitation in working with Reeve-Tec Membranes on future contracts where the opportunity may arise.

Should you have any queries or require any further information, please do not hesitate to contact the undersigned at the below address.

Kind Regards,

Simon Garland
Estimator
